

DURING THE HOLOCAUST...

- The Nazi's ideology and tactics began with discrimination and ended in **genocide**.
- Ordinary people witnessed atrocities, yet many chose to remain silent—betraying their neighbors. Rather than resist, they looked away and allowed genocide. The Nazis murdered **6 million Jews**.
- An additional **5 million people** were also killed, including Soviet, Polish and Serb civilians; people with disabilities; Sinti and Roma (Gypsies); Jehovah's Witnesses; and "criminals" and "asocials" (e.g., non-conformists, pacifists and homosexuals).
- The word "holocaust" means "**sacrifice by fire**".

We said never again...

TODAY...

- South Sudan's civil war and ethnic cleansing have displaced **4 million people**. Estimates of the dead range from 50,000 to 300,000.
- 1.4 million Christians lived in Iraq in 2003. Today, there are **only 275,000**.
- **1.2 million** Rohingya Muslims have fled deadly persecution in Myanmar.
- The Roma *still* face grave human rights abuses in Europe.
- Hate crimes in the U.S. are rising, with **more than 20%** motivated by religious bigotry against Jews, Muslims and other religious minorities.

It's time we meant it.
