The Corporate Religious Diversity Assessment (CRDA) has launched! Today’s global corporations have more diverse stakeholders, customers, employees and partners than ever before. To understand their religious diversity, top companies need an assessment tool that is specifically designed for the workplace.

Tanenbaum and the Religious Freedom & Business Foundation collaborated to create the CRDA, an internal assessment tool for companies to self-evaluate their religious diversity efforts. For more information, please email workplacediversity@tanenbaum.org or call Workplace Program Associate, Sujata Bajracharya, at 212.867.7757.

Faith-Based Health Care & the LGBT Community

Tanenbaum’s Health Care program recently hosted a roundtable event to critique, discuss and evaluate our research paper, Faith-Based Health Care and the LGBT Community: Opportunities and Barriers for Antibody Care. Over 20 representatives attended the roundtable, from organizations such as The Joint Commission, The Catholic Health Association, Human Rights Campaign and Jewish Queer Youth. The event stimulated informative conversations around practical next steps and the responsibilities of institutions and health care providers, which will be useful for the paper and our formal recommendations.

Honoring All Women

For over a century, International Women’s Day has been celebrated annually on March 8. It’s a day that’s not specific to a country, religion or organization — it’s for everyone. It belongs to all women in every group everywhere. It’s a day to celebrate our hearts, and to recognize the contributions that faith—so historically intertwined with patriarchal systems—has made and can continue to make to women’s rights and progress in the 21st century.

Tanenbaum’s CEO Joyce Dubensky delivered the event’s keynote speech on “The Parliament of World Religions: Women and Leadership in the World of Interfaith”.

The Henry Luce Foundation - 2019 Philanthropic Bridge Builder:

For over 80 years, the Henry Luce Foundation has made significant investments in research, resources and thought leadership that has enhanced public knowledge and critical discussions. The Foundation understands religion’s relevance in multiple domains—including in conflict, health and the environment—and has creatively supported efforts to deliver a more nuanced, contextualized and dynamic understanding about religion in the international arena.

NYC Health + Hospitals - 2019 Adam Solomon Award for Excellence:

As the largest medical care system in the United States, NYC Health + Hospitals has made significant strides to embrace religious diversity. In doing so, NYC Health + Hospitals established itself as a global leader in comprehensive care for diverse populations. The unique programs and partnerships they have developed are Transformative for the communities they serve and set a standard for medical care across the globe.

Target - 2019 Corporate Bridge Builder:

Over the years, Target has engaged in many important and ongoing efforts geared toward creating workplace that is equitable for all employees while offering a welcoming environment for the customers. In 2018, Target received the Corporate Religious Diversity Assessment (CRDA), an internal assessment tool for companies to self-evaluate their religious diversity efforts.
